

I dont get into political battles. I am writing this for my children. My children watch KSMO 62 frequently. I try to monitor what they watch. I do not wish for their television time to be interrupted for a political statement of any nature. I teach my children not to pass judgement on individuals.

I believe that a public station that uses the airwaves for free should not use a station for political gain. I dont care about the content of the story or who the story is for or against. No station should make a monetary gain off of the use of free public television.

I believe an investigation into this act should occur.
